

K-LOVE and its supporting stations is very important to me, my family, and my community. This radio station provides uplifting, positive music, information on upcoming local events, and a place where I can feel connected/involved. If K-LOVE were to be replaced by an LPFM our community would be losing a very good source of positive music and upcoming local events that are not published aggressively elsewhere. If that channel is taken away, a large percentage of the community would not get information about events in their area. My family and I support the music and programs heard on K-LOVE and if it were to go away, my family and the community in general would be losing a good source of information and encouragement.
